

How to generate a HMR referral using Medical Director

Medical Director Software is used by more than 18,000 doctors throughout Australia. All manner of templates exist in the package to do many things. One of these templates has been compiled in conjunction with HMR Pharmacists to specifically address their referral needs from Practitioners in relation to Home Medicine Reviews.

It is very easy for Medical Director Users to create really effective referral letters to Genesis Pharmacy Services or their preferred consultant pharmacists.

How to create the DMMR referral Letter in Medical Director?

- 1) Open the Patient file.
- 2) Open the Letter Writer.

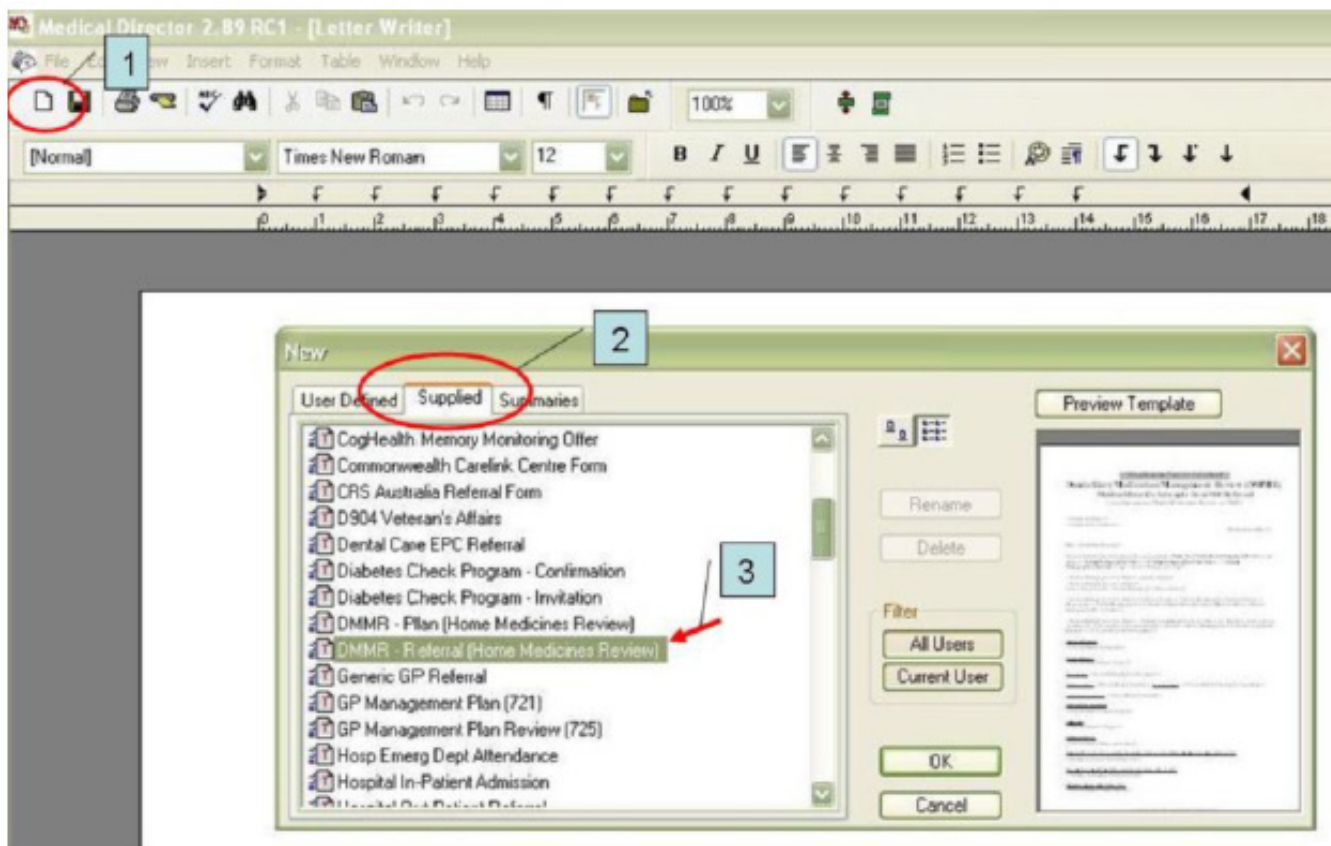

Medical Director Version 2

Medical Director Version 3

- 3) Navigate to the supplied Template letters, by clicking on 1, then 2, then 3 in the following graphic. Locate the DMMR referral letter and double click on it.

4) Select a recipient and then follow the prompts, filling in answers to any questions.

5) Read through the generated letter and check any listed check boxes to identify things like Medication Administration Aids used or owned by the patient, Disease Monitoring Aids used or owned by the patient etc.

6) Finally, you can print it out, fax it or email it. You are also able to encrypt and digitally sign it.
